

Editable Slides for Home Scavenger Hunt

Created by: [Escape the Space](#)

Editing Instructions:

The original file is not editable. In order to edit to fit your home, first make a copy (File, then Make A Copy), then edit directly on to the slide.

When printing, I suggest printing 4 sheets to a page.

The original clues are meant to be a little challenging by including locations such as under the couch and inside a chip bag. Feel free to revise to fit your community's needs.

I am outside your house. You look at me every day, but my insides never look the same way. Sometimes I give you bills or junk, but when you find a letter, you always feel better. Go find me!

You found the mailbox!

When you open me up, you'll find some tools.

Step inside, but make sure you wear shoes.

You may see hammers, lawn mowers and more. It's usually dark; just find the door.

Open it up and don't look too far!

Go find me!

You found the crawl space/ garage/ shed door!

You must be getting hungry. Time for something crunchy. I am the bag that holds the cheesy snack. If you can't reach me, just ask. Come find me.

You found the inside of the chip bag!

I hope you aren't getting tired, otherwise this next place may be tempting. I can be used for forts, fights, and laying your head. Come find me!

You found the inside of the pillowcase!

You've done a lot of walking, but you haven't gone too far. You get in me when it's time to go; hear my engine roar.

Open my door and start your search!

You found the car!

I drip. I splash. I help you get clean. I'm not where you wash your hair; I'm where you brush your teeth! Come find me!

You found the bathroom sink!

It's starting to get warm, so you won't need me anymore. I kept you warm when cold was knocking at the door. You slid me on your arms and zipped me up every day, but now I'm put away. Come find me!

You found your winter coat!

When guests come to visit, they can spend the night here. Though, it holds random stuff the rest of the year. No visitors now; that's for sure. Check inside all of the drawers.

You found the dresser drawer in the guest room!

Tired yet? Maybe it's time to sit down.

This is the comfiest place around. We

use it most when we watch movies or

TV. Look above and below when you

come find me!

You found under the couch!

Earlier you found the winter coat, which protects you when the outside is cold.

Outside isn't the only place with ice. Look inside for ice and where you keep food before it is time.

You found the freezer!

Next location is opposite of here. I'm warm and I move and I help make things clean. You hear my loud buzzer when I am done, then it's time to fold (oh, what fun!).

You found the dryer!

Your challenge is about to end. But the fun doesn't have to. Let's finish with a celebratory song and dance move. Find where we listen to music and choose your favorite song. Let's hit it!

You finished!

Your creative thinking and focus helped you succeed on your challenge. Way to go! Choose an activity now that will help you slow down (of course, after your celebratory song).
